28th January 2021

To the Parents/Carers of Year 5

Assalamu Alykum

We are very pleased and excited to announce that from Monday 1st February 2021, Manchester Islamic Educational Trust and its associated schools we will be launching a **Chromebook** Parent Contribution scheme.

We are aware that some households have been struggling to provide computing resources for their children. To help the parents and children enrolled in our schools, The Trust has been in extensive and exhaustive talks with a number of vendors and finance companies with a view to offer a scheme that would be sharia compliant and would not be an undue financial- and cash flow burden for parents. As you are aware the integration of technology into the curriculum will further enhance and develop the outstanding teaching and learning experience for the children.

The scheme as offered is based on:

- ✓ 12 monthly payments against a direct debit.
- ✓ The ownership of the device will be transferred over to parent at the end of the period.
- ✓ Theft and accidental damage insurance cover is included in the monthly payments to be made.
- ✓ Additional details can be obtained after you have accessed the website via the link provided below and by inserting any of the registration codes provided below in this letter.

The portal will close for orders on Monday 15th February 2021

What are the benefits to children and parents?

- Worry-free access to low-cost ICT.
- Seamless links between school and home learning.
- Increased access to information and the ability to work on real-life problems.
- Increased engagement and motivation from children. Research shows that nearly all children's levels of motivation and interest are increased when ICT is used as a learning tool.
- Improved opportunities for the children to be presented with personalised activities and receive personalised responses upon which they can act more effectively.
- Improved opportunity for the children to engage with multimedia learning, e.g. create video presentations, respond in writing to a film clip or music etc.

We realise that this proposal is asking parents to make a considerable commitment, one which they have not made before. We do know, however, that parents only want the best for their children and we believe that this project could make a very significant difference to their chances of success in the long run.

The following link will take you to a secure website where you can create your order.
