ENGLISH

The children will be looking at a book relating to the rainforest topic called 'The Explorers' by Katherine Rundell. The children will learn about the feature of an information text, and will create their own leaflets. Then they will work towards writing a journal entry. The children will then create a radio broadcast. Finally they will be writing a persuasive letter to the Brazilian Ambassador about destroying the Amazon Rainforest.

ART

This is half term we will focus on Henri Rousseau and his work on forests which has pupils using Henri Rousseau's & 'Surprise - Tiger in a Tropical Storm' as a stimulus for them to then create their own version of the painting as a 3D picture.

QURAN

Memorisation: Start surah al-Infitar

Revision: all surahs from al-Mutaffifeen to an-Naas

Recitation: Read from Quran based on individual reading levels based on initial and continued assessment.

SCIENCE & HUMANITIES

Science:

This 'Living Things and Their Habitats' unit will teach your class about the process of reproduction and the life cycles of plants, mammals, amphibians, insects and birds. The children will explore reproduction in different plants, including different methods of pollination. They will recap their work in Year 3 by playing a game to name the parts of a flower. The children will have the opportunity to take cuttings from plants, creating clones of the parent plant. They will learn about different types of mammals and their different life cycles, making life cycle wheels to present their learning. Furthermore, the children will find out about Jane Goodall and her work with the now-endangered chimpanzees in Africa. They will explore metamorphosis in insects and amphibians, comparing their life cycles. Finally, the children will explore the life cycles of birds, and will write and star in their own wildlife documentary comparing the life cycles of different living things.

Humanities:

Children take a closer look at the mysteries of tropical rainforests. From the layers of the forest and its animal inhabitants, to the unique climate found in the tropics. They compare a British forest with the Amazon rainforest, and begin to explore some of the conservation issues surrounding the destruction of rainforest habitats.

By the end of the unit, children should be able to name where rainforests are found and types of locations they are found in e.g. their climate, along the Equator etc. They will be able to name the layers of the rainforest and compare the similarities and differences between rainforests in tropical climates and in some colder climates. They will also look at the environmental impacts of human activity on rainforests and explore the effects of deforestation.

COMPUTING

Google sites - Pupils will create their own Google website. Pupils will learn how to use various commands and features in order to bring to life their website.

MATHEMATICS

In Year 5 Multiplication and Division, children build upon and extend their use of the formal written methods, multiplying four-digit numbers by two-digit numbers and dividing numbers up to four-digits by one-digit numbers. They express remainders as whole numbers, fractions and decimals and choose from these in order to answer questions appropriately when solving problems. The children use their multiplication tables facts to help them to solve larger calculations and understand the terms factor, multiple and prime, square and cube numbers. Children use the equals sign to indicate equivalence and multiply and divide by 10, 100 and 1000 with increasing confidence, including calculations which involve decimals.

URDU

CLOTHES...KAPRAY/LIBAS...different types of clothes, winter/summer clothes, favourite clothes, Eid clothes.

Making simple statements about clothes/favourite clothes.

Read translate and write words and sentences related to the topic.

Simple aspects of grammar and how to apply them.

Punctuation. ا ب پ ٹ ت ث ج چ ح خ د ذ

ڈ ر ز ژ س ش ص ض ط ظ ع

PSHE

This unit entitled Together Everyone Achieves More focuses on the positive qualities of a team, learning how to disagree respectfully and communicate effectively. It looks at the key qualities and skills needed for a team to be successful. The lessons address collaborative learning and teach children how to compromise to ensure a group task is completed successfully. The unit ends by addressing the importance of caring for team members and the shared responsibilities a team has.

PE
