Dear Parents/Carers,

**Re: COVID 19 Information Letter – Year 5**

Assalamu alaikom

I hope this email finds you in good health and strong Imaan.

I have just been informed that a pupil in Year 5 has tested positive for COVID-19.

Below is the updated government guidance:

**Children who are *testing positive for COVID 19*:**

- Are advised to stay at home for 3 days after the test and avoid contact with other people
- If at the end of 3 days they feel well and do not have a temperature, the risk of passing it on is much lower and they can return to school

**Children who *display symptoms*:**

Children with symptoms\*\* of a respiratory infection such as COVID-19 and a high temperature are advised to stay at home and avoid contact with other people until they no longer have a temperature or no longer feel unwell.

**Symptoms\*\*:**

*continuous cough, high temperature, loss of/change in normal sense of taste/smell, shortness of breath, unexplained tiredness / lack of energy, muscle aches/pains, loss of appetite, unusual / longer lasting headache, sore throat/stuffy or runny nose, diarrhoea, feeling- or being sick*

**Children with *mild symptoms*** such as runny nose, sore throat or slight cough, who are otherwise well, can continue to attend school

**Adults who are a close contact of a COVID-19 positive case are advised to:**

- Avoid contact with people at higher risk of serious illness
- Limit close contact outside household
- Wear well-fitting face covering with multiple layers or surgical face mask if close contact with other people is needed
- Wash hands frequently
- Ventilate rooms
- Clean frequently touched surfaces

**Children who are a close contact of a COVID-19 positive case can continue to attend school as normal.**

I pray that Allah SWT grants shifa to those affected.

Kind regards  
Wasalaam

D. Ghafari  
**Head Teacher**
