

**Year 3**

# **Topic List**

MANCHESTER  
MUSLIM  
PREPARATORY  
SCHOOL  
FAITH • LEARNING • LIFE

**Class Teacher: Mrs Jannath**

**Teaching Assistant: Mrs Mahmood**

**Theme:  
Mother Nature**

**Summer 1 2022**

## MATHEMATICS

In Maths, we will continue to develop our fractions knowledge, building on what we covered in the last half term. This time we will look at counting in tenths as well as counting in fractions of a number line. Additionally, we will use our multiplication and division skills to find fractions of a set of objects. Finally, we will move on to adding and subtracting fractions.

## ENGLISH

In this unit, we will also be looking at poetry again. The children will learn about and enjoy reading Calligrams before writing their own. They go on to look at and explore shape poems, writing their own both as a whole class and individually.

## SCIENCE & HUMANITIES

Our 'Plants' unit will cover learning the names of different parts of plants, and the jobs they do. The children will work scientifically and collaboratively to investigate what plants need to grow well, and will present their findings to their classmates. Furthermore, they will have chance to predict what will happen in an exciting investigation into the transportation of water within plants. They will work in a hands-on way to identify the parts of a flower, and will explore the different stages of the life cycle of a flowering plant.

In History, we will focus on Victorian life by investigating what life was like for children who lived and worked in a Victorian workhouse. Children will have the opportunity to explore different sources of evidence in order to gather information about Victorian life.

## ART

Our Art 'Insects' unit provides an opportunity for children to consolidate ways in which we can create line, texture and tone using various materials. Additionally, we will begin to look at how we can create our own insect sculptures inspired by the work of famous artists such as Michael Brennan Wood and Jennifer Angus. We will also revise work from previously studied artists such as Anish Kapoor and Henri Matisse and reflect on how they have inspired us with our own artwork over the year.

## COMPUTING

The Bebras Computing Challenge : pupils will take part in the Bebras computing challenge Kits that introduces computational thinking to pupils. Bebras Computing Challenge was designed to get students excited about Computing. Each student answers questions that focus on computational and logical thinking.

## PSHE

Our PSHE 'Be Yourself' unit this half term is inspired by the idea that it is important to have confidence to be yourself. It aims to enable children to identify their strengths and achievements as well as help them to recognise different emotions they experience. In this unit, children will also explore how to express their thoughts and feelings respectfully and how to be assertive when in uncomfortable situations. The children will also have an opportunity to explore the influence of the media in how we view ourselves and analyse the reality of these messages.

## ISLAMIC STUDIES

How I celebrate Eid al-Fitr  
Akhlaq: Children around the Prophet  
(saw)  
Akhlaq: The Qualities of the Muslim

## QURAN

**Memorisation:** Surah al-Fajr  
**Revision:** From surah al-Balad to an-Naas  
**Reading:** Read from Qaidah books based on individual reading levels or from the Quran based on initial and continued assessment.
